## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

- 1) ☒ Responsive to communication(s) filed on 08 September 2003.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 4-14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Nordin (WO 96/10946), as set forth in the previous action.

Nordin is concerned with the creation of mop comprising two cleaning surfaces (abstract). Said mop comprising microfibers having a dtex below one (p. 2, lines 26-30). Said mop woven or knitted to form short and long loops (p. 2, lines 15-25). Nordin does not seem to specifically teach the loop height. If Nordin's loops are not inherently 3-9 mm, then it would have been obvious to a person having ordinary skill in the art to modify the length of the loops. Such a modification would have been motivated by the desire to optimize the friction, brushing, and accumulation properties of the mop (p. 6, lines 20-30).

Said mop attached to a handle (p. 7, lines 25-29).

Said loops comprising polyamide and polyester filaments (p. 4, lines 24-29).

Said mop comprising flat fibers (p. 5, lines 25-26).

### ***Response to Arguments***

3. Applicant argues that Nordin fails to teach loop height. However, as previously set forth, applicant's claimed loop height may be inherent in Nordin. If not, the skilled

Art Unit: 1771

artisan would have been motivated to vary loop height. Because, Nordin is silent with respect to this detail the skilled artisan would be forced to experiment with different heights. Modifying loop height would have been motivated by the desire to optimize the friction, brushing, and accumulation properties of the mop (p. 6, lines 20-30).

### ***Conclusion***

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
